

Introduction

The Department of Chemistry in the Faculty of Science at Dar es Salaam University College of Education (DUCE) using the newly constructed state of the art laboratory equipped with new laboratory equipment is hereby announcing the introduction of short courses that are practically oriented but not limited to education stakeholders and entrepreneurs as a way to extend its community services.

Target Groups

The courses are tailored to cater for the fast changing laboratory technology and geared to meet the needs of various stakeholders including;

- ⇒ Secondary School Chemistry Teachers (both Ordinary and Advanced).
- ⇒ Laboratory Technicians and Laboratory Assistants.
- ⇒ Entrepreneurs dealing with: local production of detergents, disinfectants, shampoo and cosmetics.
- ⇒ High school chemistry students.

NB. Distilled water and ice flakes/ice cubes for secondary school practicals can be prepared by the Department on demand bases.
